ARJUN MEHTA

AI / FULL-STACK SOFTWARE ENGINEER

Mumbai, India | arjun.mehta@example.com | +91 90000 12345

PROFESSIONAL SUMMARY

Software engineer with 3+ years of experience building production web applications and AI-assisted developer tools. Strong in React, TypeScript, Node.js, Python, REST APIs, SQL, cloud deployment, and generative AI integrations. Experienced in responsive interfaces, secure backend services, automated testing, and data-driven features using large language models.

SKILLS

TypeScript, JavaScript, Python, SQL, React, Next.js, Node.js, Express, FastAPI, Tailwind CSS, Gemini API, prompt engineering, structured JSON, NLP, vector search, Git, Docker, PostgreSQL, MongoDB, Redis, Linux, AWS, Vite, Jest

EXPERIENCE

Software Engineer — Nexora Technologies | Mumbai | 2023–Present

Developed React and TypeScript dashboards, reducing page load time by 32% through code splitting, caching, and API optimization.

Built Express and Node.js REST services with authentication, validation, centralized error handling, and PostgreSQL persistence.

Integrated Gemini generative AI APIs for document summarization, structured data extraction, and personalized recommendations.

Implemented automated unit and API tests with Jest and CI type-check and lint gates.

PROJECTS

CareerLens — AI Resume & Interview Platform | React, TypeScript, Node.js, Express, Gemini API

Built resume-to-job ATS matching, PDF text extraction, skill-gap analysis, personalized interview generation, and automated scorecards.

Smart Support Copilot | Python, FastAPI, Gemini API, PostgreSQL

Created an AI assistant that classifies support requests, retrieves knowledge, and generates structured response drafts.

EDUCATION

B.E. Computer Engineering — University of Mumbai | 2018–2022 | CGPA 8.4/10
