ELENA RUIZ

Data Engineer

Barcelona, Spain | elena.ruiz@example.com | +34 612 345 678

PROFESSIONAL SUMMARY

Data engineer with 6 years of experience building reliable batch and streaming pipelines. Focus on Python, SQL, Airflow, Spark, dbt, data quality testing, and cloud data platforms on AWS. Comfortable owning warehouse models end to end.

TECHNICAL SKILLS

Python, SQL, Apache Airflow, Spark, dbt, Kafka, Snowflake, AWS, Docker, Git

EXPERIENCE

Senior Data Engineer - Nord Logistics 2021 - Present

- Designed nightly Airflow DAGs processing 40 million events with data tests.
- Migrated legacy ETL jobs to dbt models, cutting warehouse costs by 28 percent.
- Introduced schema contract checks that reduced downstream pipeline incidents.

Data Engineer - Kanto Retail 2019 - 2021

- Built Spark jobs for clickstream aggregation served to product analytics.
- Automated database backfills and monitoring alerts for the analytics team.

EDUCATION

M.Eng. Information Systems, Polytechnic University of Catalonia 2019
