TOMAS BERG - Backend Engineer

tomas.berg@example.com | +46 70 123 45 67 | Stockholm, Sweden

PERSONAL STATEMENT

Backend engineer with four years of experience designing APIs and services in Go and Node.js. Enjoys observability, testing culture, and pragmatic architecture.

WORK HISTORY

Backend Engineer at Fjord Systems 2021 - Present

- Developed gRPC services backed by PostgreSQL with full integration test suites.
- Cut p95 latency by 45 percent through query tuning and read replicas.
- Owned on-call runbooks and dashboards for the billing platform.

Junior Developer at Nordbyte 2019 - 2021

- Maintained REST endpoints and CI pipelines for a multi-tenant SaaS product.
- Wrote migration tooling that removed hours of manual release work.

TECHNICAL SKILLS:

Go, Node.js, TypeScript, PostgreSQL, Redis, Docker, Kubernetes, Terraform, gRPC

EDUCATION & TRAINING

B.Sc. Computer Science, Uppsala University 2019
